

Risk Management – Half Day Course

Description:

This half (1/2) day face to face course will provide Managers, Supervisors and Workers with effective tools and methods for the identification of hazards and the assessment and control of risk. It will enable participants to apply the correct Risk Management principles to confidently and actively participate in the process of workplace Risk Management.

This is a condensed version of our one (1) day course.

Learning Outcomes:

On completion of this course participants will be able to:

- Interpret the Work Health and Safety legal obligations and definitions.
- Apply the principles of Risk Management as part of a workplace Safety Management System.
- Undertake Risk Management activities at their workplace including inspections and risk assessments.
- Use the Hierarchy of Controls to implement control measures for identified risks.
- Understand the importance of hazard monitoring and review.

Training Delivery:

This course can be customised by experienced and qualified safety facilitators to suit your organisational needs. It will include a variety of training delivery methods designed for your working environment and to enable participant interaction.

Investment:

On-site delivery costs (maximum 20 participants). Price on application.
Discounts apply to Safety Partnership Program members.

Certification:

Participants will receive a Certificate of Attendance.
