

Psychosocial Hazard Awareness Training – Half Day Course

Description:

This half (1/2) day training program is designed to increase awareness of psychosocial hazards in the workplace and equip participants with the knowledge and skills to identify, prevent, and manage psychosocial hazards.

The course will cover the legal obligations of employers and employees under the Work Health and Safety Act, as well as risk management strategies, prevention and control strategies, and support measures for employees affected by psychosocial hazards.

Learning Outcomes:

- Define psychosocial hazards and explain their impact on the physical and mental health of employees
- Identify common psychosocial hazards in the workplace
- Understand their legal obligations with regards to psychosocial hazards
- Apply the risk management process to identify, assess, and control psychosocial hazards in the workplace
- Assist in the implementation of prevention and control strategies to eliminate or minimize the risks of psychosocial hazards
- Provide support for employees affected by psychosocial hazards

Training Delivery:

This course can be customised by experienced and qualified safety facilitators to suit your organisational needs (additional fee applies). Incorporating your organisational policy and procedures, the course includes a variety of training delivery methods designed to suit your workplace and the participants.

Investment:

On-site delivery costs (maximum 20 participants). Price on application. Discounts apply to Safety Partnership Program members.

Certification:

Participants will receive a Certificate of Attendance.
